The plot is well contrived, there is strong individualisation in the characters; the scenes are depicted with clearness and a warm glow of local colour, while the main incidents are worked out with power, Not even in "King Solomon's Mines," when entrance is effected into the mysterious chamber, FIHE Undersigned have This Day been is the thrill greater than when Colonel Quaritch appointed SOLE AGENTS for the Sale unearths the treasure; hidden away from Crom-' Hongkong, 26th June, 1888.

HONGKONG, NOVEMBER 10TH, 1888.

THE defeat of Mr. CLEVELAND in his can-States will have been learned with regret by the advocates of free trade. In 1984 Mr. "CLEVELAND, in his contest with Mr. BLAINE. carried twenty states with 219 electoral votes, Mr. Blaine carrying eighteen with morning service at 11 o'clock; evening service at 182 electoral votes, the majority thus being | 6 o'clock. The sermon in the evening will be thirty-seven out of a total of 401. During the period of his administration he has filled three services will be given to the Scripture the bigh office with credit and dignity and Reader fund for Mission work in the harbour of has been personally popular. Thus in the Canadian following is the programme:fisheries difficulty Mr. CLEVELAND evinced a desire to effect a settlement on terms Vales equitable to both parties, and a treaty was negotiated which, if it had been carried into effect, would have laid the controversy to rest. The Senate, however, for party purposes, disapproved the treaty, and a good deal of inflammatory talk against England Frementle. This is carrying coals to Newcastle was indulged in. In their present campaign with a vengeance. The accumulation of money by surpluses in the national budget demanded attention. For the fiscal year ending June 30th last the revenue was estimated at was estimated at over \$104,000,000. It would be absurd to exaggerate the estrange. ment that exists, but it would be equally absurd to ignore it. War between the United States and England is as remote a contingency, we think, as could well imagined, although the Standard the other day foolishly thought it necessary to remind the Americans, in connection with Mr. CLE- were of such a serious character that he suc-VELAND's proposed retaliation against Consda, that England possessed ships and guns. Mr. CLEVELAND's declaration with reference to retaliation, which was naturally adversely commented on by the English press, was due to political exigency, when the Senate_refused to ratify the treaty; it has not been carried into effect, and if Mr. CLEVELAND bad been again returned to the White House the question would have been disposed of in an amicable spirit on both sides. What may happen now that General HARRISON has been elected and the Government is once more verted in Republican hands it is impossible to forecast, but it is earnestly to be boped that whatever feeling of estrangement there may be at the present time between England

and the States may speedily be allayed and cordiality be established in its stead, for ill feeling between nations, as between individuals, though it may not lead to Llows, may nevertheless be attended by very serious inconveniences. While regretting the result points. Appended are the scores :of the election on general grounds there is one point on which we look upon the Republican had declared himself in favour of the single gold standard. They will in all probability take active measures for the reestablishment of silver in its former position, and now that the English Currency Commission has recommended bimetallism may be hoped equilibrium between the two metals will be restored.

The following, from the Poona Observer, will be read with interest by the friends of the gentleman referred to in the paragraph:—On Sunday evening last (30th September) the house and gardens No. 24, Civil Lines, belonging to Mr. Noor Mahomed Jairsibhoy Peerbhoy presented an appearance which suggested some fairy scene in the Arabian Nights. Nothing could exceed the genuine hospitality accorded by Mr. Noor Mahomed Jairajbhoy Peerbhoy to his guests. The programme of the evening comprised music, dancing, refreshments and other items, which when accompanied with the geniality shown as on the present occasion by the host combine to make a pleasant evening. One of the features of the evening was the stand-up supper, the menu being adapted to the different castes, amongst whom were some forty or fifty of the same caste as the host.

On the whole the scoring as far as has been ascertained (for none of the actual scores have been made up yet) was good and quite up to the average. In fact in two or three instances some remarkably fine shooting has been done. Mr. E. L. Woodin, firing in the second all comers' competition, (any rifle 800 yards) obtained the excellent record of 47 out of a possible fifty. His score was composed of eight bullseyes, one three, and one four. In the third. event for all comers (Association, for any rifle; 900 yards) he again carried off the honours crediting bimself with eight bullseyes, one inner and a magpie, making again 47 out of a possible fifty. Private Schmark of the 58th Regiment scored at the 200 yards range 34 out of a possible thirtyfive, a really meritorious performance. Major Churchill, shot very well at this range, and came a point below this number. The three-hundred range was headed by Corporal Flanagan who scored 32. Major Ellis and Captain Collinson were also well up in the scoring list, but there are several members who have not yet been able to compete, owing to the exceptionally large number of entries, for all the events. The firing will be continued to-day when the Ladies prize will be shot for at 3.30. During the time that this is going on all other competions will be suspended, and the band of the

He was suing for \$10 in lieu of notice. There appeared from the evidence three reasons why plaintiff was dismissed from the Company's employ. The first was not so much that he was incompetent, but that he habitually neglected to do his work properly. Time after time Mr. Hayllar had warned shout careleseness in giving the wrong numbers and he had received numerous complaints from subscribers in consequence of these mistakes. It could not be supposed that the Company would keep a servant who was continually getting them into trouble. It also appeared that he had disobeyed orders as to keeping the exchange room free from outside persons. The third reason for dismissal, he was not altogether so much satisfied with, that owing either to the plaintiff's action or some of his friends the instru ment had become damaged. That was a possible round for dismissal, but he should not be satified had that reason stood alone. He (his Lordship) was quite entisted that plaintiff had no olaim and might even have been dismissed in the niddle of the month. He had no doubt that in coming forward to give evidence Mr. Wicking was actuated by motives of kindness, but his evidence was not material to the question at issue. The whole question was whether there was a valid eason existing for the plaintiff's discharge at

	WHY HE DID NOT GO TO THE	
	HOSPITAL.	
ţ -	HE COULD LEAP THROUGH THE AIR	
	My object in writing is two-fold; to express	
:·	my gratitude for a great benefit, and to tell a short story which cannot fail to interest the	
	feelings of many others. It is all about myself but I have remarked that when a man tells the	:
•	honest truth about himself he is all the more likely to be of use to his fellow-creatures. To	•
	begin, then, you must know I had long been more or less subject to attacks of bronchitis,	n

Secretary. Hongkong 6th August, 1885. TIMBER-

But I didn't want to go to the hospital. Who without doing it? I am a labouring man, with a large family depending on me for support, and I might alrost as well be in my grave as to be laid on my back in a hospital unable to lift a hand for months, or God only knows how long THE Undersigned. Agents for Messrs. Right at this point I had a thought flash across my mind like a streak of sunshine in a cloudy day. I had heard and read a good deal about Mother Seigel's Curative Syrup, and I resolved before consenting to be taken to the hospital, I would try that well-known remedy. On this I gave up the doctor's medicine and began taking the Syrup. Mark the wonderful result! I had taken but three doses within twenty-four hours | I HAMPAGNE "MONOPOLE." when I was seized with a fit of coughing, and threw up the phlegm and muons off my chest by the mouthful. The Syrup had loosened and broken it up. Continuing with the Syrup, the racking pain, which I believe came from the bitter and poison humours in my blood and joints soon left me entirely, and I felt like going to sleep, and I did sleep sound and quiet. Then I felt hungry, with a natural appetite, and as I ate I soon got strong and well. Ifalt I could leap through the air with delight i

In a week I was able to go to my work again. It doesn't seem possible, yet it is true; and the neighbours know it. There are plenty of wit-
nesses to prove it. And, therefore, when I say
I preach the good news of the great power of
Beigel's Syrup to cure pain and disease far and
wide, nobody will wonder at me.
